

How to Apply Editor Styles (Colored Backgrounds and Borders)

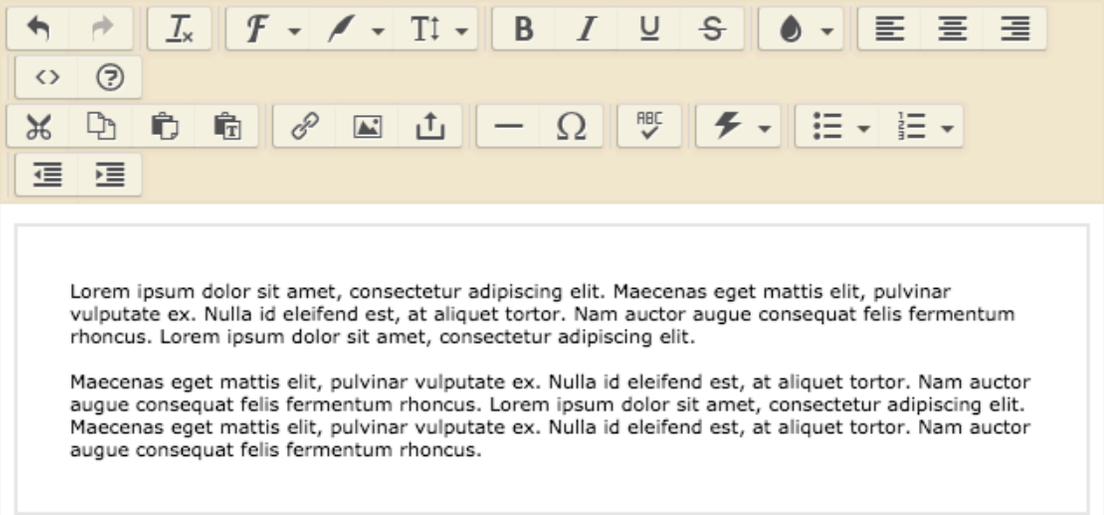

1. Go into the Content App you want to apply a style to
2. Is the content one paragraph or multiple paragraphs?
 - **If one paragraph:** Highlight the paragraph of text with your mouse and click on the fancy F (Template Styles) dropdown
 - Choose the style you want to apply (the options for your template may differ from what is shown in this example)

- **If your content is multiple paragraphs and you want to apply the border/background color to all content:**
 - In these instances, you have to do one extra step to ensure that the style gets applied to all content rather than each individual paragraph, which would look like this:

Content App Options

Save Cancel E-ALERT

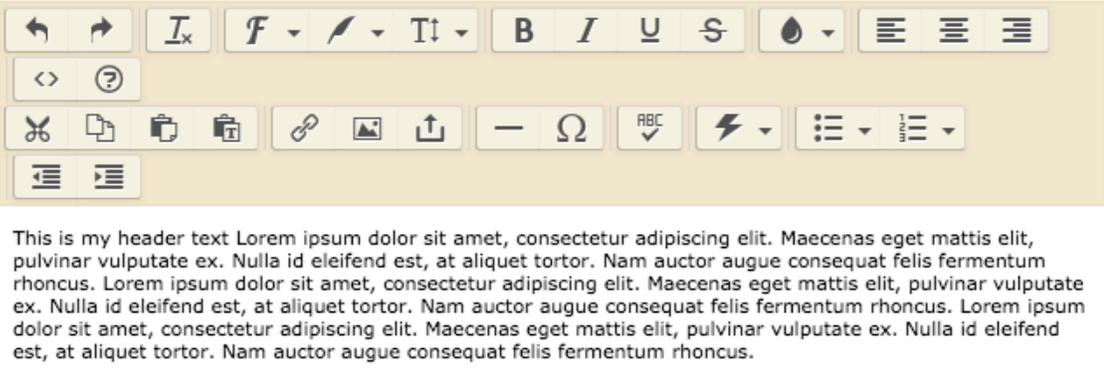

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Maecenas eget mattis elit, pulvinar vulputate ex. Nulla id eleifend est, at aliquet tortor. Nam auctor augue consequat felis fermentum rhoncus. Lorem ipsum dolor sit amet, consectetur adipiscing elit.

Maecenas eget mattis elit, pulvinar vulputate ex. Nulla id eleifend est, at aliquet tortor. Nam auctor augue consequat felis fermentum rhoncus. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Maecenas eget mattis elit, pulvinar vulputate ex. Nulla id eleifend est, at aliquet tortor. Nam auctor augue consequat felis fermentum rhoncus.

- If you are using a header within your app, treat it as two separate paragraphs. Follow the instructions above to turn your text into one paragraph, like this:

Content App Options

Save Cancel E-ALERT

This is my header text Lorem ipsum dolor sit amet, consectetur adipiscing elit. Maecenas eget mattis elit, pulvinar vulputate ex. Nulla id eleifend est, at aliquet tortor. Nam auctor augue consequat felis fermentum rhoncus. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Maecenas eget mattis elit, pulvinar vulputate ex. Nulla id eleifend est, at aliquet tortor. Nam auctor augue consequat felis fermentum rhoncus. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Maecenas eget mattis elit, pulvinar vulputate ex. Nulla id eleifend est, at aliquet tortor. Nam auctor augue consequat felis fermentum rhoncus.

- Highlight all text and choose your desired style from the dropdown:

Content App Options

Save Cancel E-ALERT

This is my header text Lorem ipsum dolor sit amet, consectetur adipiscing elit. Maecenas eget mattis elit, pulvinar vulputate ex. Nulla id eleifend est, at aliquet tortor. Nam auctor augue consequat felis fermentum rhoncus. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Maecenas eget mattis elit, pulvinar vulputate ex. Nulla id eleifend est, at aliquet tortor. Nam auctor augue consequat felis fermentum rhoncus. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Maecenas eget mattis elit, pulvinar vulputate ex. Nulla id eleifend est, at aliquet tortor. Nam auctor augue consequat felis fermentum rhoncus.

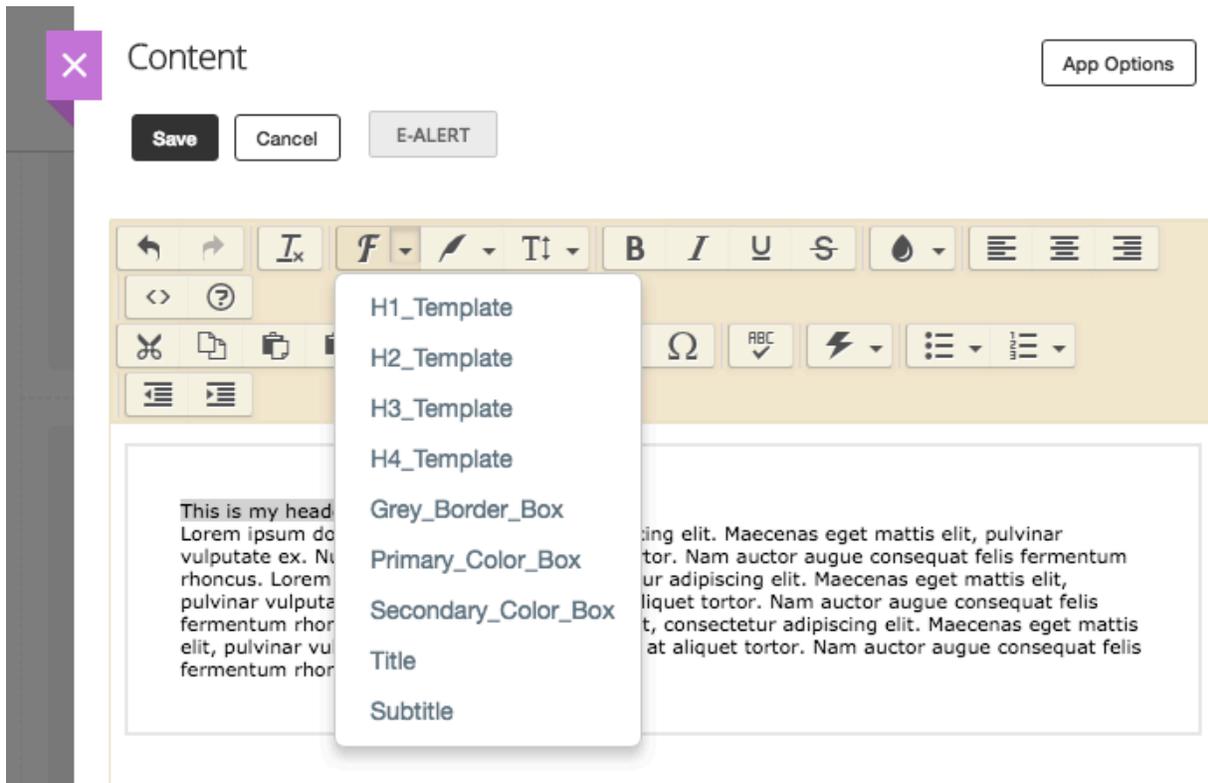

- Once the style is applied, hold SHIFT while you hit ENTER/RETURN after your header text so that you get this:

Content App Options

Save Cancel E-ALERT

This is my header text
 Lorem ipsum dolor sit amet, consectetur adipiscing elit. Maecenas eget mattis elit, pulvinar vulputate ex. Nulla id eleifend est, at aliquet tortor. Nam auctor augue consequat felis fermentum rhoncus. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Maecenas eget mattis elit, pulvinar vulputate ex. Nulla id eleifend est, at aliquet tortor. Nam auctor augue consequat felis fermentum rhoncus. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Maecenas eget mattis elit, pulvinar vulputate ex. Nulla id eleifend est, at aliquet tortor. Nam auctor augue consequat felis fermentum rhoncus.

- Now you can highlight your header text and choose H1, H2, H3, etc from the fancy F (Template Styles) dropdown

- You've now applied the editor style to your entire paragraph of text as well as your header, and you're done!
- Below is a screenshot of the end result
